GRAPHIC DESIGNER | WEB DEVELOPER

Full Stack Web Developer and Graphic Designer with a background in illustration, watercolor, and cartooning. Possess a strong foundation in communication, problem solving, and creativity that lends itself to building applications that are aesthetically pleasing and meet client expectations. Earned a Certificate in Web Development from the University of Washington.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript/ECMAScript 6, SQL

Applications: Github, Heroku, mySQL, Postman

Tools: Bootstrap, Materialize, jQuery, Node.js, Express, Handlebars.js, ReactJS, MongoDB

Adobe: Photoshop, Illustrator, Animate, InDesign, After Effects, Audition, Dreamweaver, XD

PROJECTS

Achording to Jazz

<https://github.com/ScottDancer/Music-Chord-Identifier> |

<https://gnuartemis.github.io/Music-Chord-Identifier/index.html>

Achording to Jazz uses complex algorithms to dissect chord information returned by APIs based on student note selection. It is designed to serve as a chord study tool for the elementary level music student.

Role: Concept and name creation, resource development/api research, front-end to back-end connections.

Tools: API-Reverse Chord Identifier, API-Chord Sound (for Piano Display and Progression), Materialize for design, Audiosynth.js and playKeyboard.js.

The Cold West

<https://github.com/ScottDancer/project2> | <https://the-cold-west.herokuapp.com>

The Cold West is a Washington State ski and snowboard travel guide. The user creates an account and searches winter resorts in their area.

Role: Concept and name creation, resource development, home and about us page design, original artwork, color design, front-end to back-end connections.

Tools: Materialize, Slick, Leaflet, MySQL2, Express, Express-Handlebars, Express-session, bcrypt, dotenv, Sequelize, Adobe Illustrator and XD

Indulge

<https://github.com/mercspring/experience-indulgence> | <https://experience-indulgence.herokuapp.com>

Indulge was conceived in the covid-19 era as a high end chef directory allowing upscale diners to find and hire their favorite chefs from the restaurants they loved before the days restrictions to create a unique in-home fine dining experience.

Role: Concept and name creation, resource development, front-end to back-end connections, app layout, home page, logo design, and color themes.

Tools: MongoDB, Mongoose ORM, Material-ui, Cloudinary, Zip Code Base API, React, Javascript, Adobe Illustrator and XD

EXPERIENCE

Twenty five years of fine dining, bartending and managing restaurants in Boston, San Diego, Big Bear Lake, Cape Cod, Tucson, Cannon Beach, and Vancouver. Won several Hospitality Awards which led to the promotion as a corporate regional trainer of 32 restaurants along the East Coast in 2014.
